

# Victor Valley Transit Authority's Vanpool Program

## Get More Out of Your Commute

VVTA's Vanpool program makes getting to work feel less like work. Sharing the ride means you get to experience your daily drive your way:

- Get in a workday groove with your favorite music or podcasts.
- Give your mind a mini vacation or stoke the idea furnace with a good book.
- Get connected and get a head start on your day.
- Get your revenge on the alarm clock and rest up before you get in.
- You have to get there so you might as well get comfortable.

## Too Good to Pass Up

VVTA's Vanpool program lets co-workers in groups of five or more share the commute and the cost of leasing and maintaining a brand new vehicle. Save the wear and tear and maintenance on your own vehicle.

All VVTA Vanpools can receive a subsidy of up to \$500 to help pay the lease each month, as well as the ability to upgrade to a brand new vehicle every year. Specially-equipped, commuter-friendly leased vehicles include maintenance, roadside assistance, and insurance.

## Benefits Beyond the Work Week

In some cases, drivers may even use the vehicle to log personal miles during after hours and throughout the weekend. You or your employer may lease a vehicle through one of our qualified vendors, Commute with Enterprise, Green Commuter, or Airport Van Rental.

## Everybody Wins With Vanpool

When employers include Vanpooling in their suite of benefits, employees get a better commute and feel happier and more loyal to their employer. Whether you're a commuter or an employer, VVTA can get you on the road to a successful Vanpool in as little as five minutes.

VVTA and its transit partners will be your full-service Vanpool concierge. Connect directly with us, or ask your HR department to reach us, and we'll provide materials you can use to promote the program and deliver presentations that average an 85% success rate. Call or email today to schedule a free employee Vanpool presentation.

## Getting Started is Easy

Vanpools are open to any commuter in an area with a participating provider. With benefits like these, the choice is easy:

- Spend less on gas
- Shorten commute time
- Reduce freeway congestion
- Get a brand new car every year!
- Enjoy the commute
- Arrive at work in better spirits

Our VVTA Vanpool coordinator is standing by at (760) 995-3561 to answer your questions. Or, visit your HR department and ask them to get in touch with us.
